Human or AI? Sentence Evaluation Survey

This survey will contain a list of sentences representing prospective students' preferences.

Some sentences are generated by ChatGPT, while others are written by humans.

Classify whether the sentence is AI-generated or human-written by selecting:

- 0: Human-written
- 1: AI-generated

If you classify a sentence as AI-generated, please provide a revised version that sounds more natural or "human-like". This survey is part of my thesis research at the Vietnamese-German University. Thank you for your participation.

* Indicates required question

Statements 1-5

Do you think these sentences were written by AI?

1. I am looking for a Master of Science in Data Science, ideally in English and taught   *
   on campus with a one-year duration.
